Objective

Computer Science student at VIT Bhopal with hands-on experience in C++, Java, Python, and SQL. Actively learning Data Structures & Algorithms and exploring Artificial Intelligence with a focus on Natural Language Processing and Large Language Models. Looking for opportunities to apply skills, build impactful projects, and grow in the AI/ML domain.

Education

B.Tech in Computer Science and Engineering (AIML)

Vellore Institute of Technology, Bhopal

2023 – 2027 (Expected)

Technical Skills

- Languages: C++, Java, Python, SQL
- Tools & Technologies: Git, GitHub, VS Code, Jupyter Notebook, Streamlit
- CS Fundamentals: Data Structures, Algorithms, OOP, DBMS
- AI/ML: LLMs (ChatGPT, DALL·E), NLP, Machine Learning (Learning Phase)
- Soft Skills: Problem Solving, Self-learning, Communication

Projects

AgriBot – Crop Recommendation System

Technologies: Python, Machine Learning, Streamlit

- Developed a crop recommendation system that suggests suitable crops based on soil parameters like nitrogen, phosphorus, potassium, pH, and rainfall.
- Utilized machine learning algorithms for accurate prediction based on a dataset of Indian crop data.
- Built a simple and interactive web interface using Streamlit for user input and results display.
- Gained experience in ML model training, data preprocessing, and deployment of ML apps.

Interests

AI & NLP, Open Source Projects, UI/UX Design (Figma, Canva), Prompt Engineering, Tech Blogging
